

Michael R. Trottni, O.D.

5 Centre Drive suite 1B
Monroe Township, NJ 08831
410-688-4143 (Cell)

EDUCATION

September 2003 - May 2007 OD Doctorate of Optometry	Pennsylvania College of Optometry	Elkins Park, PA
September 2003- May 2007 BS Visual Science	Pennsylvania College of Optometry	Elkins Park, PA
September 1999 - May 2003 BS Biophysics	University of Scranton	Scranton, PA

PROFESSIONAL EXPERIENCE

November 2012 – Present Staff Optometrist	Outlook Eyecare
--	-----------------

Office Locations:

5 Centre Drive Suite 1B Monroe Township, NJ 08831
100 Canal Pointe Blvd. Suite 100 Princeton, N 08540

Medical Staff Privileges at:

Robert Wood Johnson University Hospital – New Brunswick NJ

Full time staff optometrist predominately managing and treating ocular pathologies and emergencies. Practice consists of three ophthalmologists specializing in retina, glaucoma and oculoplastics along with three optometrists. My clinical duties include primary, secondary and tertiary clinical, nursing home and emergency eye care as well as emergency room and inpatient consultations at Robert Wood Johnson hospital. Special interest in anterior segment pathology including uveitis, scleritis, corneal and herpetic eye disease along with neuro-ophthalmic eye disease.

July 2008 – November 2012 Staff Optometrist	Seidenberg Protzko Eye Associates
--	-----------------------------------

Office Locations:

2023 Pulaski Highway • Havre de Grace, Maryland 21078
520 Upper Chesapeake Drive, Suite 401 • Bel Air, Maryland 21014
360 East Pulaski Highway, Suite 1 • Elkton, Maryland 21921

Medial Staff Privileges at:

Upper Chesapeake Medical Center – Bel Air, Maryland 21014
Harford Memorial Hospital - Havre De Grace, MD 21078
Union Hospital – Elkton, MD 21921

Full time staff optometrist predominately managing and treating ocular emergencies and pathologies. Practice consists of three general ophthalmologists with subspecialties in pediatrics, refractive surgery, oculoplastics and cosmetic procedures. A full time retina specialist, part time glaucoma specialist and four optometrists are also on staff.

Clinical duties include in office patient care (generally 30+ patients per day), emergency room and inpatient hospital consultations. Provides nursing home care monthly at three facilities as well as a special needs clinic once a year. Sub-investigator of research studies. Special interest in anterior segment pathology including uveitis, scleritis, corneal and herpetic eye disease along with neruo-ophthalmic eye disease.

Non clinical duties include co-director of student and resident optometry programs. Precepts and mentors student and resident optometrists in clinic and by participating in weekly lectures, book reviews, journal club and case presentations. Additionally acts as technician supervisor involved in hiring and termination of technical staff, training new members, annual performance reviews, monthly technician meetings and day to day issues.

RESIDENCY

Residency Certification

June 2007 – June 2008

Seidenberg and Protzko Eye Associates

Residency

Optometric residency at Seidenberg Protzko Eye Associates in Havre de Grace, MD. Primary secondary and tertiary care program with emphasis on ocular disease, emergency eye care, pediatrics and surgical eye care.

Program provides advanced clinical training in anterior segment disease, glaucoma, retina, neuro-ophthalmology, strabismus and ocular surgeries as well as training in pre/post op cataract, retina, glaucoma and refractive care. Additionally, had after hours on-call responsibility for the practice and managed in-patient hospital care as well as nursing home care. Rotated with Eric Suan M.D. (retinal specialist) and Allan Robin M.D. (glaucoma specialist); Attended weekly lectures at the Wilmer Eye Clinic at Johns Hopkins University. Participated in student supervision and weekly lectures/discussions. Lectured to local optometrists and students at The Pennsylvania College of Optometry. Participated and was a sub investigator in national research studies. Attended and observed weekly doctor meetings which dealt with various administrative responsibilities and practice management.

CLINICAL ROTATIONS AND RELATED EXPERIENCE

November 2006 – May 2007

Seidenberg and Protzko Eye Associates

Externship

- Achieved clinical honors
- Provided primary secondary and tertiary eye care to patients
- Worked closely with optometrists in diagnosing, treating and managing various ocular diseases
- Worked closely with pediatric ophthalmologist in managing children with strabismic and refractive conditions
- Worked closely with corneal ophthalmologist in managing various anterior segment disorders.
- Participated in weekly lectures and presentations with staff.

September 2006 – November 2006

Beach Eye Care

Virginia Beach, VA

Externship

- Achieved clinical honors
- Provide primary, secondary and tertiary eye care to patients
- Co-managed pre-operative and post-operative care to patients with LASIK, PRK, intacts, monofocal and multifocal intraocular lens implants
- Work closely with retinal specialist in diagnosing and treating various ocular pathologies
- Work closely with neurologist in diagnosing and treating various neurological diseases

June 2006 – August 2006

The Eye Institute

Philadelphia, PA

Externship

- Achieved clinical honors
- Provided primary, secondary and tertiary eye care to patients
- Rotated through various specialties including: glaucoma, anterior segment, retina, neuro-optometry, and emergency service
- Rotated through pediatrics and diagnosed and managed various binocular and accommodative disorders and complicated contact lens fittings as well as exposure to various vision therapy techniques

January 2006 – May 2006

Northeastern Eye Institute Scranton, PA

Externship

- Achieved clinical honors
- Worked under the mentorship of Joseph Shovlin OD and provided primary, secondary and tertiary care to patients with various ocular diseases.
- Worked closely with ophthalmologist to diagnosis and treat various ocular pathologies with a primary focus on neurological related pathology, cataracts, glaucoma and emergency care
- Worked closely with retina specialist to diagnose and manage various ocular pathologies

Professional memberships & activities

Editor and Columnist for Review of Optometry Magazine

Medical Staff member at Robert Wood Johnson Hospital

American Academy of Optometry

New Jersey Board of Examiners in Optometry with TPA certification

Community Healthcare Lectures and Screenings

Adjunct faculty at The Pennsylvania College of Optometry (2008-2012)

Adjunct faculty at The New England College of Optometry (2008-2012)

Research studies (Sub-Investigator)

2016-present (ongoing)

Protocol No. 17X-MC-LLCF

Principal Investigator Jeffrey Greenberg M.D

Effect of LY3202626 on Alzheimer's Disease Progression as Measured by Cerebral 18 F-AV-1451 Tau-PET in Mild Alzheimer's Disease Dementia

July 2010

Protocol No. C-09-055 (Alcon)

Principal Investigator: Jonathan A. Seidenberg, M.D.

A Clinical Evaluation of Nepafanac Ophthalmic Suspension, 0/3% for Prevention and Treatment of Ocular Inflammation and Pain after Cataract Surgery

January 2010 - September 2010

Protocol No. MRK 2452-001 (Merck & Co., Inc)

Principal Investigator: Eugene E. Protzko, MD

A Phase III, Randomized, Active Comparator-Controlled, Twelve-Week, Double-Masked Clinical trial to Compare the Efficacy and Safety of Preservative-Free MK-2452 (0.0015%) and Preservative-Free Timolol Maleate (0.5%) in Patients with Open-Angle Glaucoma and Ocular Hypertension

October 2009 - July 2010

Protocol No. 576 (Bausch & Lomb)

Principal Investigator: Eugene E. Protzko, MD

A Randomized, Multicenter, Double-Masked, Parallel Group Clinical Safety and Efficacy Evaluation of Loteprednol Etabonate Ophthalmic Gel, 0.5% versus Vehicle for the Treatment of Inflammation and Pain Following Cataract Surgery.

September 2009

Protocol No. 603 (Bausch & Lomb)

Principal Investigator: Eugene E. Protzko, MD

A Study to Evaluate the Clinical and Microbial Efficacy of Besifloxacin Ophthalmic Suspension, 0.6%, BID Compared to vehicle in the Treatment of Bacterial Conjunctivitis.

September 2009

Protocol No. 192024-038 (Allergan)

Principal Investigator: Eugene E. Protzko, MD

A One Year, Multi-center, Double-Masked, Randomized, Parallel-Group Study Assessing the Safety and Efficacy of Once Daily Application of Bimatoprost 0.03% Solution Compared to Vehicle to Treat Hypotrichosis of the Eyelashes from Varied Etiologies

May 2009 - March 2010

Protocol No. 550 (Bausch & Lomb)

Principal Investigator: Eugene E. Protzko, MD

A Clinical Safety and Efficacy Evaluation of Zylet (Loteprednol etabonate 0.5% and tobramycin 0.3% ophthalmic suspension) compared to Lotemax (loteprednol etabonate ophthalmic suspension 0.5%), Tobramycin Ophthalmic Solution USP, 0.3%, and the Vehicle of Zylet for the Treatment of Blepharoconjunctivitis in Pediatric Subjects

January 2009 - July 2009

Protocol No. 210699-003 (Allergan)

Principal Investigator: Eugene E. Protzko, MD

A 2-Week, Multi-center, Double-Masked, Randomized, Parallel Study of the Safety and Efficacy of AGN 210669 Ophthalmic Solution Compared with LUMIGAN and AGN 210669 Vehicle in Subjects with Ocular Hypertension or Primary Open-Angle Glaucoma

January 2009 - August 2009

Protocol No. 575 (Bausch & Lomb)

Principal Investigator: Eugene E. Protzko, MD

An Open-Label, Randomized Assessment of the Concentrations of Besifloxacin, Moxifloxacin, or Gatifloxacin in the Aqueous Humor of Subjects After a Single Topical Dose

February 2009 - August 2009

Protocol CL-PKT-0415083-P (ISTA)

Principal Investigator: Eugene E. Protzko, MD

A Multi-Center, Randomized, Double-Masked, Bioequivalence study of T-Pred (prednisolone acetate 1% and tobramycin 0.3% ophthalmic suspension) Compared to Pred Forte (prednisolone acetate) 1% sterile ophthalmic suspension

January 2009 - August 2009

Protocol No. C-08-049 (Alcon Research Inc.)

Principal Investigator: Eugene E. Protzko, MD

Evaluate the Safety and IOP-Lowering Efficacy of Anecortave Acetate in Patients with Open-Angle Glaucoma or Ocular Hypertension

November 2008 - April 2009

Protocol No. C-08-047 (Alcon Research Inc.)

Principal Investigator: Eugene E. Protzko, MD

"Study to Demonstrate Superiority of Travatan Z Ophthalmic Solution Over Xalatan Ophthalmic Solution in Ocular Surface Disease Index (OSDI) Scores in Patients with Open-Angle Glaucoma or Ocular Hypertension".

August 2008 - March 2009

Protocol No. PPL GLAU 02 Extension (QLT Inc.)

Principal Investigator: Eugene E. Protzko, MD

An Open-Label Extension Study to PPL GLAU 02 to Investigate the Long-Term Safety and Efficacy of the Punctum Plug Delivery System for the Treatment of Primary Open-Angle Glaucoma or Ocular Hypertension

March 2008 - December 2008

Protocol No. 27-002 (Santen)

Principal Investigator: Eugene E. Protzko, MD

Phase II Glaucoma/Ocular Hypertension Study A Randomized, Double-masked, Placebo- and Active - controlled, Parallel-group, Multi-Center Dose-response Trial of DE-104 Ophthalmic Solution in Patients with Primary Open-angle Glaucoma or Ocular Hypertension

March 2008 - March 2009

Protocol PPL GLAU 02 (QLT Plug Delivery Inc.)

Principal Investigator: Eugene E. Protzko, MD

A Phase II, Randomized, Masked, Parallel-Group Study of Safety and Preliminary Efficacy of the Punctum Plug Delivery System in Subjects with Primary Open Angle Glaucoma or Ocular Hypertension

February 2008 - January 2009

Protocol No. C-07-502-002 (Insite Vision, Inc.)

Principal Investigator: Eugene E. Protzko, MD

A Randomized, Double-Masked, Parallel-Group, Comparative Study to Evaluate The Clinical and Anit-Microbial Efficacy and Safety of Azasite Plus Compared to Azasite Alone and Dexamethadone Alone in the Treatment of Subjects with Blepharoconjunctivitis

January 2008 - December 2008

Protocol 192024-034 (Allergan)

Principal Investigator: Eugene E. Protzko, MD

An Eighteen Week, Multi-Center, Investigator-Masked, Randomized, Parallel-Group Study to Evaluate the Safety and Efficacy of Bimatoprost 0.03% (Lumigan) Ophthalmic Solution Once-Daily (QD) Compared with Latanoprost 0.005% (Xalatan) Ophthalmic Solution QD Following Six Weeks of treatment with Xalatan QD in Subjects with Glaucoma or Ocular Hypertension

November 2007 - October 2008

Protocol CL-S&E-0802071-P (ISTA)

Principal Investigator: Eugene E. Protzko, MD

A Randomized, Multi-Center, Double-Masked, Parallel Group Study Assessing the Efficacy and Safety of Bromfenac Ophthalmic Solution 0.18% QD vs. Xibrom (Bromfenac Ophthalmic Solution) 0.09% QD for Treatment of Ocular Inflammation, Pain, and Photophobia Associated with Cataract Surgery

October 2007 - December 2007

Protocol CI-SAF-0405071-P (ISTA)

Principal Investigator: Eugene E. Protzko, MD

A Multi-Center, Double-Masked, Randomized, Placebo-Controlled, Parallel Group Study Evaluating the Safety of Bepotastine Besilate Ophthalmic Solution 1.5% Used Twice Daily in Healthy, Normal Volunteers

February 2007 - December 2007

Protocol 26-002 (Santen)

Principal Investigator: Eugene E. Protzko, MD

A Phase II Prospective, Randomized, Observer-masked, Parallel Group, Multi-Center Study Assessing the Safety and Efficacy of two Concentrations of DE-101 (0.002% and 0.006% Rivoglitazone HCl) Compared to Placebo for the Treatment of Dry Eye Disease.
